

BiLite/MonoLite

300 WATT XENON ILLUMINATORS

The First Illuminators with the advantages of compact xenon arc light. The high intensity and white light character of xenon is incorporated into a cost effective unique single unit package. AngioLaz offers both a dual turret (BiLite) and single turret (MonoLite) model. In the BiLite, both turrets are independent and functional at the same time.

Long Life Xenon lamp has an average lamp life of 1000 hours.

Recyclable Return our quick change lamp module to AngioLaz and receive a rebate. Our recyclable lamp module saves you time and money because of its reusable components.

Small Half the size of other 300 watt single port systems. Twice the flexibility; half the space. There are no vents on the sides or front of the unit, so equipment placement is not a problem.

Quiet The unique cooling system moves air only from the back, keeping the noise down while minimizing air disturbances in the front.

Head Sets Our own light-weight fixed or variable design, or other manufacturers' configurations are readily attachable to both the BiLite and MonoLite.

Stand Comes with basket and hooks for head sets. Just roll it to where you need it.

Video Both models are available with a video connection to use the AngioLaz video camera. This option can be used for a headset mounted camera or for endoscopic applications.
