

MightyLite™

FIBER OPTIC HEADLAMP

Lightest weight right angle headlamp on the market. Each element is designed to reduce total system weight.

Variable Beam Superior bright optical beam can be adjusted in diameter.

Comfortable Light weight eases neck and shoulder strain during long procedures.

Newly designed optical system Small lightweight optical system uses a multi-element fiber optic cable. Smaller optical module also improves field of vision.

Adaptable Standard WOLF type connector easily attaches to the AngioLaz MonoLite or BiLite as well as other illuminators.

Fully adjustable Uniquely designed linkage arm allows for vertical adjustment of the optical module.
